# Year-End Progress Report

This report provides an evaluation of the City's progress at accomplishing performance goals that were due within Fiscal Year 2010 (July 1, 2009 through June 30, 2010). A complete listing of all goals can be found in the official FY2010-2012 Strategic Plan which is available on the City's website at [www.cityofrockhill.com](http://www.cityofrockhill.com).

The City produces formal progress reports semi-annually; for updates throughout the year on many of the goals included in the Strategic Plan, please visit the City's Performance Dashboard (available on the City's website under "Accountability Updates").

## YEAR-END PERFORMANCE AT A GLANCE

The City met 72% of the FY2010 performance targets. The chart below provides the color-coded breakdown of performance progress.

## UNDERSTANDING THE YEAR-END REPORT

The Year-End Report contains three categories of information:

1. **Target** – for the reader's convenience the target originally adopted in the official FY2010-2012 Strategic Plan is included.
2. **Year-End Actual** – the City's actual performance information is provided.
3. **Quick View** – is designed to provide a quick indication of a goal's progress by using color-coded circles. The legend is below:

- Met target
- Did not meet target
- Data still needed

Year-end results suggest that the City experienced both successes and challenges. The City met several key targets including assisting with the creation of 112 jobs, reducing violent crime, and replacing over 5,900 linear feet of damaged sidewalk. Other performance targets proved to be challenging; these targets included increasing the commercial and industrial tax base by \$40 million, responding to priority one Police calls within five minutes, and initiating the Clean Air Works public information program. The City of Rock Hill is committed to championing accountability and transparency. This Year-End Report provides a formal opportunity for the City to both evaluate and communicate its progress at meeting its goals.

**Public Safety**— provide high quality services to residents and visitors to the City of Rock Hill which protect life, health, and property by providing highly trained personnel with excellent equipment to prevent police and fire incidents where possible and respond quickly and effectively when the incidents occur.

**Short and Long Term Economic Development**— strengthen the City’s role as a place for economic activity through job creation, business location and expansion, redevelopment, and tourism.

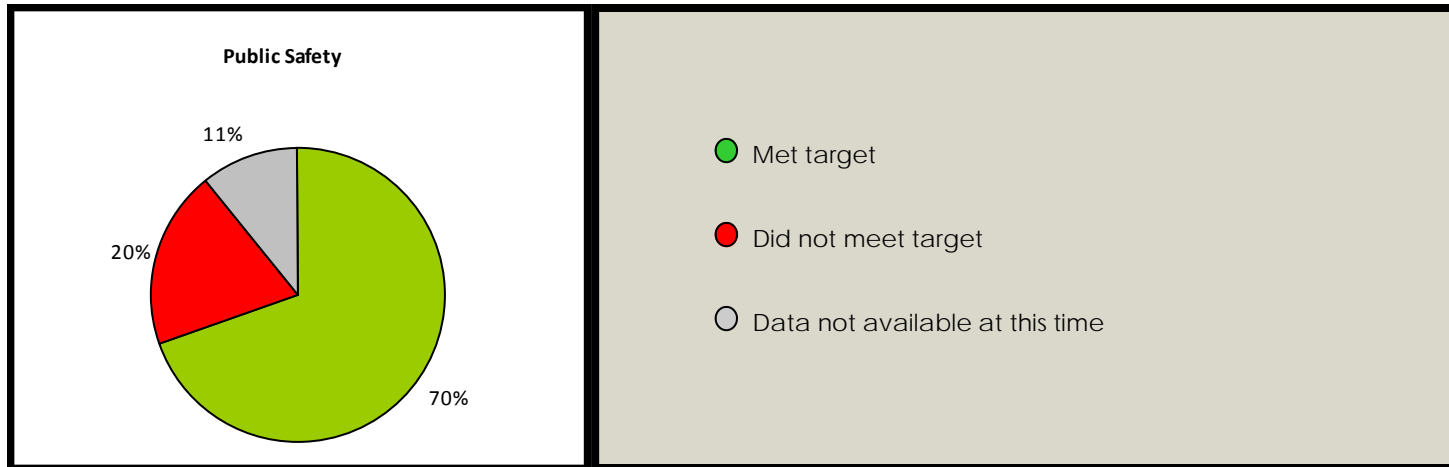

**Old Town Revitalization**— strengthen and enhance the neighborhoods and business centers of Old Town, the City’s urban core.

**Ensure the Provision of Quality Public Services**— provide the public with high quality service levels and demand service standards to ensure adequate maintenance and growth of City service levels and the entire City infrastructure. This will be accomplished through a comprehensive and long-range planning approach to the delivery of municipal services and funding of capital improvements—one that balances the need to prioritize services, maintain service levels, and fund capital improvements.

**Sustainable Growth**— provide for growth that meets the needs of the present, without compromising the ability of future generations to meet their own needs. This includes quality in physical planning and design, efficiency through integrated land use and transportation, and the fostering of environmentally responsible development practices.

**Quality of Life**— provide high quality leisure services and amenities that make Rock Hill a great place to work and live.
