

Rock Hill – Fort Mill Area Transportation Study 2035 Long Range Transportation Plan

Development of the RFATS Long-Range Transportation Plan was a collaborative process that involved numerous stakeholders, including the RFATS Policy Committee, Study Team, Citizens Advisory Committee as well as representatives from the Federal Highway Administration (FHWA); Federal Transit Administration (FTA); Environmental Protection Agency (EPA); South Carolina Department of Health & Environmental Control (SCDHEC) and the South Carolina Department of Transportation (SCDOT). It also should be noted that the general public provided input for this plan at community workshops held on February 21 and 28, 2008 and at a public hearing on April 24, 2009. The plan was adopted on April 24, 2009. Everyone’s efforts are greatly appreciated.
