## BUSINESS LICENSE FEE SCHEDULE

**A BUSINESS LICENSE is required for any development activity requiring a Zoning or Building Permit or causing a change of use or accessory use.** For Business License information, call 803-329-7046 or write:

City of Rock Hill License Division;  
155 Johnston Street [or P O Box 11646];  
Rock Hill SC 29731.

The business license requirement applies to all design professionals and any company or individual receiving income from projects or work within the city limits of Rock Hill.

The Permit Application Center (PAC) can not process any plans for review until all individuals listed on the title block(s) of the plans have secured a current city business license.

The following chart shows commonly used rates for selected businesses. Contact the business license office if your type of business is not listed below or if you need additional information. Your business fee is calculated on your projected receipts for the year or the valuation of the work to be done or the valuation of the project if it is for one project only. The fee is also determined by the principal location of your office. The business license rate is doubled for firms or individuals with their office located outside the city limits.

Complete the Business License Application and call the business license office for directions as needed. In most cases they will be able to handle your business license by phone and fax.
