

Introducing: USTA Quickstart Tennis Ages 4 - 12

- All classes will use the USTA Quickstart format.
- For more information go to www.quickstarttennis.com
- **What Is QuickStart Tennis?**
- QuickStart Tennis is a new format to help kids twelve and under learn and play the game. To make it easier for them, we changed a few things. The court sizes. The racquet sizes. The balls. The scoring system. Even the net height.
- Now any child between ages four and twelve can start playing tennis almost immediately-even if he or she has never picked up a racquet before. It's also now part of the USTA Jr. Team Tennis league and can be part of your existing team competition. And just like other popular youth sports, QuickStart stresses the importance of play and programs as well. Which means that even more kids will have the opportunity to experience this new format, have fun playing with their friends and develop skills that will become the foundation of their game.
